

Clinic Products – Parent Notification

The Health Office may use appropriate topical items and basic first-aid supplies as part of routine student care when needed. The Health Office maintains a variety of health-related materials and supplies to support student health and safety.

The school clinic keeps the following over-the-counter products in stock for minor treatments:

- Bacitracin Antibiotic Ointment
- Hydrocortisone Cream
- Aloe Vera Lotion
- First Aid and Burn Cream
- Saline Eye Wash
- Lip Balm
- Wound Cleanser/Wipes

These products may be used as needed to treat minor injuries, skin irritation, or other routine health concerns.

MS/HS Clinic Products

The Health Office may use the following topical items as part of routine student care:

- Peppermint
- Cough Drops
- Essential Oils

If a need arises to use an item not routinely available or listed, parents/guardians will be notified as appropriate.

Parent Notification:

If you do not want your child to be treated with any of these products, please notify the Health Office via email.

For questions or additional information, please **contact the Health Office via email.**
